DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 4-11 and 17-26 are allowed.
2. The following is an examiner's statement of reasons for allowance:

After further search and consideration of Applicant's amendment filed on 02/26/2009, it is agreed that the prior art of record fail to teach or suggest alone or in combination, the limitations: "a single converter configured to provide simultaneous, independent brightness and color control of two LEDs or two groups of LEDs" as claimed in claim 1; "a controller for providing at least one control signal having a variable duty cycle to the resonance circuit and providing a resonance current through the primary winding, wherein: the resonance current is based at least in part on the variable duty cycle of the at least one control signal; and the variable duty cycle of the at least one control signal is based at least in part on at least one of a first feedback signal associated with the at least one first light source and a second feedback signal associated with the at least one second light source" as claimed in claim 17; and "at least one third light source coupled to the at least one secondary winding so as to conduct a third secondary current and thereby generate third light during both the positive half-cycle and negative half-cycle of the secondary voltage" as claimed in claim 24. It is for these reasons in combination with all the other limitations in the independent claims 1, 17 and 24, that claims 1, 4-11 and 17-26 are allowable over prior art of record.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
